 - ✓ Should be well-responsive.

THEME: A BASIC WEBSITE FOR A NON-PROFIT ORGANISATION

CONTENT:

- Website should contain at most 4-5 pages.
- The website should contain a basic easy-to-use navigation.
- A sitemap is preferable.

karmatek 2017

- Content should include "Donation", "Join our Team", etc. and other sections as relevant to the topic.
- Different sections or pages shall include various activities and achievements of the organisation.
- Buttons for "Social links" should be present although it may not work.
- A "Call to Action" button is preferable.
- The name of the non-profit organisation is to be decided by the participants. The name decided for the organisation by the participants will be given preference while judging.
- A contact page or a contact form is preferred. Backend script isn't required. Input validation is required at the user-end.

After submitting the files on the 4th of March, 2017 - 11 am, the participants will be given 30 MCQ questions. The questions will be based on simple HTML, CSS, JavaScript and jQuery. The participants will be allotted 1 hr for the same.

If necessary, as decided by the coordinator, the participants may be asked to design a very **basic page** on spot.

The participants will be judged on both: the submitted site and the MCQ round. Equal preference will be given to both the rounds. The final judgement will be declared on the 5th of March, 2017.

All the sites will be up for display on official KarmaTek site (www.karmatek.org).

The top two sites will be awarded handsomely.
