RAB NE BANA DI JODI

Here's the thing about love: It's hard to put into words.

Love brings up emotions that run the gamut from agony to ecstasy. Love can inspire us to accomplish some of the craziest and most amazing feats.

Love can make you happier than you've ever been, sadder than you've ever been, angrier than you've ever been. It can elate you and deflate you almost at the same time.

While we can all pretty much recognize the emotions associated with love, actually finding the words to explain those feelings is a pretty tough order.

People have searched for centuries to find the right way to say "I love you" and to try to explain those butterflies in your stomach, that warm fuzzy feeling in your belly and that heart skipping a beat.

One thing we DO know is that whether you've love and won — or loved and lost, it's ALWAYS worth it...
